

Challenger 604, 18 seats configuration

Tail numbers OH-WIC & OH-WII

JETFLITE operates two Challenger 604 aircraft with a unique possibility to configure the passenger cabin up to 18 seats. This lowers significantly the cost of flying per passenger to a very reasonable level. However, the passengers can still enjoy all the benefits of business aviation. Business jets with this kind of seating option are very rare. Re-configuration of the cabin takes 2 hours when the aircraft is located at the home base in Helsinki Finland. Seats are certified by the producer and upholstered with high quality leather. Additional owner approval is not needed for the charter flights.
